# Bubbles Appearance (with TRWKR, No Rain)

## Sakae Bridge - Sanage Bridge

## Sanage Bridge - Minatoshinbashi Bridge

Note: 0% Item is not displayed

Frequency of bubbles appearance from Sanage Bridge to Minato-shinbashi Bridge in the 4th stage was 20%. Appearance of bubbles in the 3rd stage was less than in the 1st stage, and it in the 2nd stage was same as in the 4th stage. Bubbles rising from bottom in the 2nd stage and in the 4th stage (early winter) was almost half as in the 1st and the 3rd stage (early summer).
