

7. Garbage

7.1. Floating Garbage

① Change of amount (with TRWKR, no rain, previous day and current day)

■ Has floating artificial garbage been decreased?

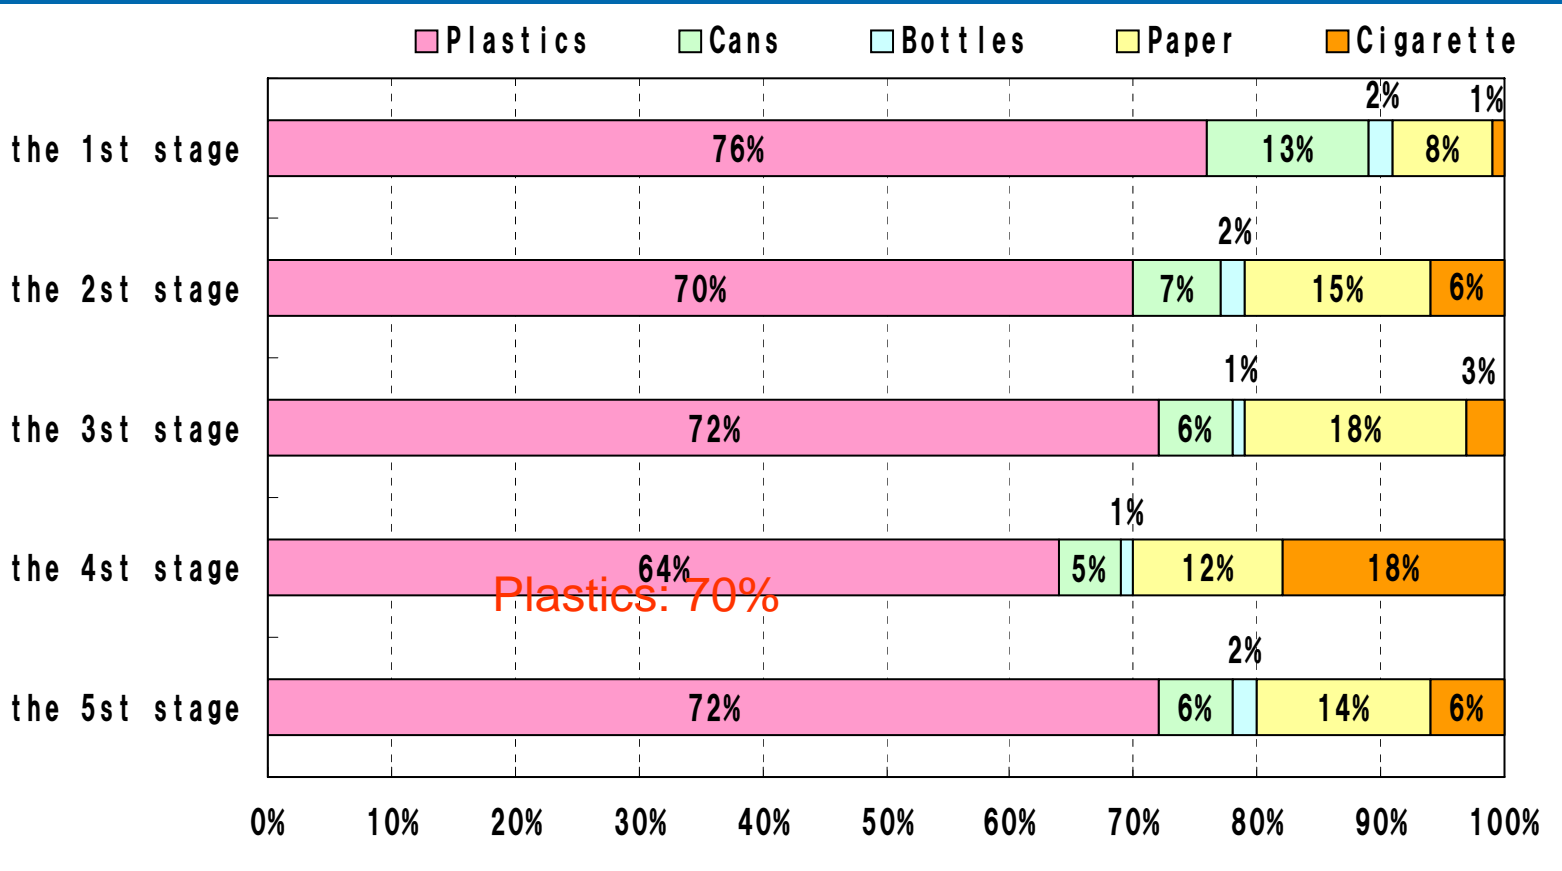

The can garbage of the 5th stage was decreased compared with the 1st. However plastics and paper were increased.

7.2. Type of Floating Garbage

artificial garbage
 Plastics (shopping bag, plastic bag, cup noodle vessel, foam polystyrene tray, pet bottle, etc.), can, bottle, cigarette(box, butt)

(from the 1st to 5th, all spans, with TRWKR, no rain, previous day and current day)

What was the most frequent in floating garbage?
 Plastics accounted approximately 70% in all garbage.
